

## **NERVGEN PHARMA PRESENTING AT UPCOMING MILITARY HEALTH SYSTEM RESEARCH SYMPOSIUM AND THE 61<sup>ST</sup> INTERNATIONAL SPINAL CORD SOCIETY ANNUAL SCIENTIFIC MEETING**

**Vancouver, Canada.** September 08, 2022 – **NervGen Pharma Corp. (TSX-V: NGEN) (OTCQX: NGENF)** (“NervGen” or the “Company”), a clinical stage biotech company dedicated to developing innovative solutions for the treatment of nervous system damage, will present a poster at the upcoming Military Health System Research Symposium (MHSRS) on September 12-15, 2022 and will also present an oral presentation at the 61<sup>st</sup> International Spinal Cord Society (ISCoS) Annual Scientific Meeting on September 17, 2022.

NervGen’s Director of Research, Dr. Marc DePaul, will present a poster at MHSRS outlining some of the preclinical data related to NervGen’s lead drug candidate NVG-291. At the ISCoS meeting, NervGen’s Chief Medical Officer, Dr. Dan Mikol, will give a presentation providing an overview on the ongoing Phase 1 study, as well as presenting the study design for the upcoming Phase 1b/2a clinical trial in spinal cord injury.

### **About Military Health System Research Symposium (MHSRS)**

The MHSRS is the Department of Defense’s foremost scientific meeting. It provides a venue for presenting new scientific knowledge resulting from military-unique research and development. The MHSRS is the premier military or civilian meeting that focuses specifically on the unique medical needs of the Warfighter. The MHSRS provides a collaborative setting for the exchange of information between military providers with deployment experience, research and academic scientists, international partners, and industry on research and related health care initiatives.

### **About International Spinal Cord Society (ISCoS) Annual Scientific Meeting**

ISCoS promotes the highest standard of care in the practice of spinal cord injury for men, women and children throughout the world. Their purpose is to study all problems relating to traumatic and non-traumatic lesions of the spinal cord including prevention, basic and clinical research, medical and surgical management, clinical practice, medical and surgical management, education, rehabilitation and social reintegration. Through its medical and multi-disciplinary team of Professionals, ISCoS endeavours to foster education, research and clinical excellence.

### **About NervGen**

NervGen (TSX-V: NGEN, OTCQX: NGENF) is a clinical stage biotech company dedicated to developing innovative treatments that enable the nervous system to repair itself following damage, whether due to injury or disease. NervGen’s lead drug candidate, NVG-291, is currently in a Phase 1 clinical trial. The Company’s initial target indications are spinal cord injury, Alzheimer’s disease and multiple sclerosis. For more information, go to [www.nervgen.com](http://www.nervgen.com).

### **About NVG-291**

NervGen holds the exclusive worldwide rights to NVG-291 and is developing a unique new class of drugs around the technology. NVG-291 is a therapeutic peptide that mimics the intracellular domain of the receptor protein tyrosine phosphatase sigma (PTP $\sigma$ ), a cell surface receptor known to interact with

chondroitin sulfate proteoglycans (CSPGs). Both PTP $\sigma$  and CSPGs have been shown to inhibit neural repair mechanisms following nervous system damage. NVG-291-R, the rodent form of NVG-291, has been shown to promote functional recovery and enable nervous system repair in a range of animal models, including models of spinal cord injury, peripheral nerve injury, multiple sclerosis and stroke, through enhanced plasticity, axonal regeneration, and remyelination.

#### **Cautionary Note Regarding Forward-Looking Statements**

This news release may contain “forward-looking information” and “forward-looking statements” within the meaning of applicable Canadian and United States securities legislation. Such forward-looking statements and information herein include, but are not limited to, the Company’s current and future plans, expectations and intentions, results, levels of activity, performance, goals or achievements, or any other future events or developments constitute forward-looking statements, and the words “may”, “will”, “would”, “should”, “could”, “expect”, “plan”, “intend”, “trend”, “indication”, “anticipate”, “believe”, “estimate”, “predict”, “likely” or “potential”, or the negative or other variations of these words or other comparable words or phrases, are intended to identify forward-looking statements. Forward-looking statements include, without limitation, statements relating to: the presentations at the MHSRS and ISCoS Annual Scientific Meeting; the Company’s initial target indications; and the creation of innovative treatments that enable the nervous system to repair itself following damage.

Forward-looking statements are based on estimates and assumptions made by the Company in light of management’s experience and perception of historical trends, current conditions and expected future developments, as well as other factors that we believe are appropriate and reasonable in the circumstances. In making forward-looking statements, the Company has relied on various assumptions, including, but not limited to: the Company’s ability to manage the effects of the COVID-19 pandemic; the accuracy of the Company’s financial projections; the Company obtaining positive results in its clinical and other trials; the Company obtaining necessary regulatory approvals; and general business, market and economic conditions.

Many factors could cause our actual results, level of activity, performance or achievements or future events or developments to differ materially from those expressed or implied by the forward-looking statements, including without limitation, a lack of revenue, insufficient funding, the impact of the COVID-19 pandemic, reliance upon key personnel, the uncertainty of the clinical development process, competition, and other factors set forth in the "Risk Factors" section of the Company’s Annual Information

Form, Short Form Base Shelf Prospectus, financial statements and Management Discussion and Analysis which can be found on SEDAR.com. All clinical development plans are subject to additional funding.

Readers should not place undue reliance on forward-looking statements made in this news release. Furthermore, unless otherwise stated, the forward-looking statements contained in this news release are made as of the date of this news release, and we have no intention and undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law. The forward-looking statements contained in this news release are expressly qualified by this cautionary statement.
